

Torino, 9-11 February 2011

# Mini-school in Model Theory

Aula S, Palazzo Campana, via Carlo Alberto 10

Enrique Casanovas and Hans Adler will lecture about the basic theory of NIP.

## Program

### Wednesday 9

- 9:20 - 10:40 Enrique Casanovas: Tutorial
- 10:40 - 11:00 Coffee & croissants
- 11:00 - 12:20 Hans Adler: Tutorial
- 12:20 - 13:00 Elisabetta Pastori: Higher amalgamation problems: a group theoretical approach
- 13:00 - 14:20 Lunch
- 14:20 - 15:00 Krzysztof Krupinski: Algebraic properties of groups and rings in model theoretic contexts
- 15:00 - 15:40 Vincenzo Mantova: Zariski geometries through examples

### Thursday 10

- 9:20 - 10:40 Enrique Casanovas: Tutorial
- 10:40 - 11:00 Coffee & croissants
- 11:00 - 12:20 Hans Adler: Tutorial
- 12:20 - 13:00 Giuseppina Terzo: Exponential polynomials over an ACF
- 13:00 - 14:20 Lunch
- 14:20 - 15:00 Davide Penazzi: Reductions of elliptic curves and real closed valued fields
- 15:00 - 15:40 Jakub Gismatullin: Model theoretic connected components of linear groups

### Friday 11

- 9:20 - 10:40 Enrique Casanovas: Tutorial
- 10:40 - 11:00 Coffee & croissants
- 11:00 - 12:20 Hans Adler: Tutorial
